Product Description

Rayco RG74T-R Stump Cutter

When it comes to engines, there's just no replacement for displacement. The Rayco RG74T-R is a high-production stump cutter powered by a massive 3.8L Cummins 74-hp (55.18 kW) diesel engine that generates peak torque of 295ft-lb (400Nm). The large displacement diesel engine delivers more cutting power than most 100-hp-class (74.57 kW) stump cutters and meets Tier 4 Final emissions without complex after-treatment systems. Compared to the competition, the difference is clear.
