Product Description

Honda 21" Hydrostatic Self Propel Push Mower - HRC216HXA

- Self-propelled, hydrostatic, commercial-grade transmission
- Roto-Stop® blade stop system
- Rugged features for commercial use
- Easy starting commercial GXV160 Honda engine

Roto-Stop®: Stop the blades without stopping the engine

Honda Roto-Stop® blade stop system allows you to step away from the mower, without having to start and restop the engine. Move items out of the way, empty the bag, or take a break, without having to restart your mower. It also allows the mower to be self-propelled without the blades turning, which provides a convenient method to transport the mower to and from the job site.

Honda commercial-grade GXV160 OHV 4-stroke engine

The easy-starting, powerful, and quiet GXV160 commercial engine is designed for superior reliability. Features include a cast iron cylinder sleeve, two-stage air filter, ball bearing supported crankshaft, electronic ignition and mechanical governor

Honda MicroCut® Twin Blades: superior mulching and bagging

Honda's exclusive MicroCut® twin blade system uses four cutting surfaces that result in ultra fine clippings for superior mulching and bagging. Tiny pieces mean up to 30% more clippings in a bag, plus better mulching - saving you time and money.
