Product Description

Gravely AXIS™ 200DW Utility Loader - 950012

This 2,100lb wheeled multi-tool machine is powered by a durable Kubota D1105 25 HP diesel engine, running at a top speed of 3.2 MPH. With an overall operating height of 84in, the AXIS 200DW has the ability to dump at a height of 47.8in while at a 45-degree angle. The 631lbs of lifting capacity with a tipping capacity of 1,262lbs, allows this compact utility loader to maximize your crew's time in the field when you need to get the job done and not break up the ground you're working on.
