Product Description

GiANT Loaders - G1500 Compact Wheel Loader

The Giant G1500 is a compact and versatile all-round work horse. The Giant G1500 compact wheel loader can be equipped with a full cab with heat for operator comfort. A wide tire selection, optional traffic lights and additional hydraulic options make this machine a great fit for snow removal purposes, landscaping & tree work, construction or farming. The G1500 comes with either a standard boom or an X-Tra boom configuration that offers more visibility and a higher lift capacity. This machine comes with a powerful 26 HP Kubota 3 cylinder diesel engine. A foldable ROPS is available for work in low clearance areas. This machine comes standard with a universal compact SSL plate and hydraulic quick attach.
