Product Description

GiANT Loaders - G3500 Compact Wheel Loader

The Giant G3500 is equipped with a strong 4 cylinder 66 HP turbo charged Kubota diesel engine with a catalyst (DOC) and particulate filter (DPF). This machine features a standard 2-speed gearbox and heavy planetary final drives that deliver a high pulling force, quick acceleration and a top speed of 18.5 mph. The Giant G3500 can be equipped with an optional heated cab with AC, that offers a spacious and comfortable working environment. Available high flow hydraulics, a large choice of tire options and optional traffic lights make this machine a great fit for fertilizer bulk applications, snow removal purposes, landscaping, construction or farming. The G3500 comes with either a Z-Bar boom or an X-Tra boom configuration that offers more visibility and a higher lift capacity. This machine comes standard with a universal full size SSL plate and hydraulic quick attach.
