Product Description

GiANT Loaders - G2700TELE Telescopic Wheel Loader

With all the features of the G2700 Series, the G2700 TELE provides additional reach and lift height to get the job done.

The Giant G2700 HD+ TELE is equipped with a strong 3 cylinder 50 HP turbo charged Kubota diesel engine with a catalyst (DOC) and particulate filter (DPF). This machine features a standard 2-speed gearbox and heavy planetary final drives that deliver a high pulling force, quick acceleration, and a top speed of 18.6 mph. The Giant G2700 HD+ TELE can be equipped with an optional heated cab that offers a spacious and comfortable working environment. The telescoping boom provides a lift height of 11 ft.10 in. Available high flow hydraulics, a large choice of tire options and optional traffic lights make this machine a great fit for snow removal purposes, landscaping & tree work, construction, or farming. The G2700 HD+ TELE offers excellent visibility and high lift capacity. A foldable ROPS is available for work in low clearance areas. This machine comes standard with a universal full size SSL plate and hydraulic quick attach.
