Product Description

GiANT Loaders - G3500TELE Telescopic Wheel Loader

With all the features of the G3500 Series, the G3500 TELE provides additional reach and lift height to get the job done. The Giant G3500 is equipped with a strong 4-cylinder 66 HP turbo-charged Kubota diesel engine with a catalyst (DOC) and particulate filter (DPF). This machine features a standard 2-speed gearbox and heavy planetary final drives that deliver a high pulling force, quick acceleration, and a top speed of 18.5 mph. The Giant G3500 can be equipped with an optional heated cab with AC, that offers a spacious and comfortable working environment. The telescoping boom provides a pin height of 169.8". Available high-flow hydraulics, a wide choice of tire options, and optional traffic lights make this machine a great fit for snow removal purposes, landscaping, construction or farming. This machine comes standard with a universal full-size SSL plate and hydraulic quick attach.
