Product Description

Blue Diamond Attachments - 60" Standard Flow Open Front Brush Cutter

The Blue Diamond® Open Front Extreme Duty Brush Cutter is not only a brutal machine, mowing up to 6" to 8" material, but it also cuts grass better than any of its competitors. Why limit yourself to doing one or the other? You don't have to sacrifice any performance to be versatile! Find out why the Blue Diamond® Brush Cutter is the most popular skid steer brush cutter in the industry!

- 3.5" (at bearing, 4" at seal) **forged** one-piece spindle is the toughest in the industry.
 - Grease-filled drive dramatically improves bearing life and downtime due to seal damage
 - Custom purpose-built motor and relief block out last industry standard motors
 - External cross-port reliefs protect motor versus internal relief valves
 - A fully enclosed motor compartment keeps out the debris that causes overheating issues, especially seen in new Tier 4 version machines.
 - No rear roller to bounce off stumps or pull cut debris along. Open design allows smoother operation
 - Bi-directional cutting allows for control of the discharge angle, as well as doubling the use of the blades
-
