### **Product Description**

## **BCS America Hiller / Furrower - 92147860**

The Hiller/Furrower easily attaches behind any BCS Tiller attachment with a hitch pin.

When installed, this accessory creates planting furrows in your seedbed. The depth of the furrow is determined by a separate adjusting shoe on the Hiller/Furrower. The wings can then be widened for hilling purposes, creating furrows 12-22" wide. It works best when used in second gear.

### FEATURES

- Adjustable wings for different row widths, from 12" to 22"
  - Easily slides onto tiller attachment and attaches with a hitch pin
  - Fits on all tiller sizes
-
