Product Description

BCS America Buddy Cart - 92193042

Everyone could use a "buddy" to help with all the hauling jobs around their property! The BCS Buddy Cart is an easy-to-use, self-propelled barrow that **hauls up to 550 pounds and 11 cubic feet of volume.**

Easily haul compost, rocks, firewood, etc., and effortlessly maneuver through common 36" gates. The Buddy Cart measures 31" wide, 52" long, and 31" high. Overall length is 78" (including tongue and hitch). Ground clearance is approximately 6" and the inside wheel-width is 18".

Featuring a heavy-duty steel tongue that **easily installs to the tractor's PTO connection point on an BCS model.** The painted steel tongue has a built in swivel, enabling it to rotate approximately 20° horizontally while navigating uneven ground contours. The frame of the Cart has a low center of gravity, making it less prone to tipping when crossing slopes and uneven terrain.

The Buddy Cart's rust-proof poly tub is 11 cubic feet dump loads with the activation of the dump lever located on the tongue. When released, **the tub easily rotates 45° to the right or left.** The dump lever includes a rope hole so the cart can be remotely dumped from the operator's position.

Finally, the Buddy Cart can also be used in "rear-mount" position by rotating the BCS handlebars and offsetting the handlebars to the left or right. Walking next to the cart can be more convenient when driving uphill or while transporting a particularly heavy load.

FEATURES

- 550-pound, 11 cubic foot capacity.
- Unit weight is 82 pounds.
- 31" wide, 78" long (including tongue), 31" high.
- Rustproof poly tub.
