Product Description

Little Wonder 9160 Series Optimax Push Blower - Briggs XR

Little Wonder Optimax™ blowers outperform the competition for moving stubborn debris, removing standing water, preparing asphalt or flat roofs for resurfacing, or for any job that requires hurricane-force air! Durable, solid-steel construction... they're built to last

- Advanced impeller and aerodynamic design produce the highest airflow in the industry
- Unique split-stream air deflector moves piles of leaves farther and faster; without blow-back!
- Large, square discharge chute is low to the ground for better blowing power
- Scrolled housing ensures consistent, constant airflow even if partially blocked by leaves
- Continuously welded all-steel impeller and housing for strength and durability you can rely on season after season
- Remote discharge chute control on the handle at your fingertips
- Ergonomic handle design; height adjustable with anti-vibration grip
- Transport bracket for convenient tie-down during transport.
- Convenient lift handle makes lifting the blower on and off the truck easier.

Optimax™ Push Blower Features

- Durable, heavy gauge all-steel housing for strength and durability
- Curved aerodynamic inlet draws air in smoothly for constant power and helps avoid clogging even if leaves are sucked in
- Integrated front/side discharge allows you to expel the air from the front of the unit or out the side without tools
- Split-stream air deflector moves piles of leaves farther and faster without blow-back
- Chain/pulley system adjusts the split-stream air deflector from the handle position
- 2-position adjustable handle
- One-piece engine deck
- Steel impeller with reverse angle
