Product Description

Little Wonder Pro Vac SP - Honda

The Power and Strength to Carry Twice the Load of Other Debris Vacuums

- Clears leaves and debris at your pace with the power, performance, and capacity to get the job done.
 - Superior airflow provides plenty of suction to fill our large capacity bag so you can collect more debris and get the job done quicker
 - Powered to perform. Honda® GX270 engine and worry-free Hydro-Gear® T2 transmission.
 - Industry-leading speed 30% faster than the nearest competitive unit. Get the job done faster . Up to 4.2 mph forward / up to 1.8 mph reverse.
 - Industry-leading suction - Top in airflow for the past 20 years.
 - Biggest, baddest bag (74.47 gal. capacity) handles the big loads.
 - Breathe easy. When you make products that produce hurricane force winds, you don't just sew in a bag liner, you install a "windshield". Diverts dust to ground level.
 - Clear line of sight. Get the job done safely. Low 40" unit height allows for clear visibility over the machine and better view of the front nozzle area.
 - Operator Comfort. Arched padded handle allow users of any size to find a comfortable operating position.
 - Maneuverability. Sleek design and rugged front swivel wheels make turning and following curved walkways and driveways effortless.
 - Nozzle height automatically adjusts - no need to stop the engine and change height settings to avoid 'scalping' and 'digging in' on rough terrain.
 - Heavy-duty treaded rear drive wheels. Allows excellent traction on both concrete and grass.
 - Easy free-wheeling. Toe tap dump valve for easy maneuverability when the engine is not engaged.
-
