Product Description

Little Wonder BedShaper - Honda GXV390

Ready for edging made easy? Put down the shovel, and start up the Little Wonder BedShaper®. This popular unit features a powerful “concave shape” notched blade to slice through soil, producing clean, sharp edges—even “S” curves—at up to 100’ per minute. Blades are highly resistant to chipping, breaking, bending, and delaminating.

- Convenient hydro-engage/bypass control from operator’s position
 - Zero-turning radius easily cuts even small diameter tree rings
 - Spring-loaded belt idler provides maintenance-free operation and is fully enclosed in the frame
 - Cutting depths from 0.5” to 4.5” controlled by a 7-position gauge wheel
 - Self-propelled hydrostatic transmission with powered forward and reverse gets the job done quickly and easily
-
