Product Description

Little Wonder Hydro Brush Cutter

The Little Wonder Hydro Brush Cutter navigates through weeds, heavy brush and overgrown vegetation with ease. Our tempered spring steel 26" blade cuts tall weeds, brush and saplings up to 2" thick. Our welded steel frame design and engine positioning provide excellent balance regardless of the terrain. The hydrostatic transmission offers variable speed selection—up to 4.2 mph forward and 1.7 mph reverse. The open differential allows each wheel to operate at different speeds and prevents scuffing when turning a corner.

Why Little Wonder Brush Cutters?

- Solid rods connect the operator to the transmission and cutter blade clutch - no cables to break or adjust.
 - Hydrostatic Transmission offers speeds up to 4.2 mph forward and 1.7 mph reverse
 - Wraparound hand guard protects hands when clearing brush along buildings, fences and trees
 - 7 - 10 - 12 gauge welded steel engine base, cutting deck, rear frame and control handle construction holds up to the toughest conditions
 - Tempered spring steel 26" blade cuts tall weeds, brush, and saplings up to 2" thick
 - Adjustable 1.5" wide, .25-inch plate steel skid shoes for excellent flotation over rough terrain.
 - 1" diameter mower blade spindle is supported by top and bottom sealed ball bearings inside a machined steel hub, a heavy-duty welded outer steel flange and grease fitting to prevent moisture
 - Easy access service points
 - Deep welled spindles and single belt pulley system for smooth cutting and easy maintenance
-
