Product Description

CFMoto CFORCE 1000 Overland

You're not looking for average, are you? This beast packs a 963cc V-Twin engine and a revolutionary suspension to chew up any terrain. Need to keep tabs on everything? The advanced 7" TFT display has got your back with all the diagnostics and entertainment you could want. This is your new partner in adventure, featuring Brushless Electronic Power Steering, three ride modes (Work/Normal/Sport), and Downhill Assist Control (DAC). Heavy-duty steel bumpers and an aluminum bash plate declare, "bring it on." And two removable hard side travel cases declare, "bring it all."
