Product Description

CFMoto ZFORCE Z10

The ZFORCE Z10 is made for adrenaline junkies. Push the start button on the steering wheel to fire up the all-new turbocharged triple-cylinder engine and prepare for launch. Navigate your experience with the 12.3" CFMOTO RideSync™ display with Apple CarPlay, your touchscreen link to connectivity and control. Our new OmniDrive™ continuously variable transmission delivers seamless transitions so fluid they slip by unfelt. And as for the rough stuff, those FOX® QSE shocks, adjusted via steering wheel controls and FOX app integration, level the gnarliest playing fields.
