Product Description

Husquarna 525iDESP MADSAW

525iDEPS MADSAW (tool only)

The Husquarna 525iDEPS MADSAW - compatible with Husquarna BLi200, BLi200x, and BLi300 batteries - is the industry's first and only dielectric battery-powered pole saw that is individually tested to meet OSHA 1910.269 and delivers an extra measure of safety for skilled line workers, utility workers, and tree care professionals. The MADSAW can be used in the bucket, in the tree, or on the ground for extreme versatility. Purposeful design allows the pole saw's sections to quickly disconnect for secure storage in a tree care truck or utility vehicle. More productive than a manual saw and as powerful as a hydraulic pole saw, the battery-powered MADSAW makes pruning and limbing projects more efficient than ever before.
