Product Description

Bearcat CH1015H 10-Inch Chipper

POWER AND EFFICIENCY COME STANDARD.

Crary® Bear Cat® engineers and manufactures the strongest lineup of towable Chippers right here in the USA. With a wide range of models, there is sure to be one that fits your needs. On top of this is a best-in-class warranty.

Presenting the powerful Crary® Bear Cat® CH1015H, 10-inch Chipper. Based on a towable frame with torsion axle suspension, the CH1015H makes branches and trees up to 10 inches in diameter disappear. 2" coupler and electric brakes standard. Features include onboard tool storage, convenient wheel chocks, and storable safety cones to mark your work area for safety.

The 32-inch diameter, 1.25-inch thick dynamically-balanced rotor weighs 308 pounds and produces tremendous chipping power. A triple-banded belt drive generates positive power, and a hydrostatic feed control provides the operator with infinite feed settings for all types and sizes of debris. Powered by a Kubota gas engine, the CH1015H kicks out 57 HP and comes with an electric start.

With 20 gallons in the fuel tank, you'll create piles of chips between refills.

Battery sold separately.
