Product Description

Bearcat CH4420 4-inch Chipper

The Crary® Bear Cat® CH4420 wood chipper is powered by a 420cc Briggs & Stratton Engine. The 49 lb. rotor is equipped with two oversized, heat-treated chipping blades and rotates at 3000 rpm at full throttle. The rotor is driven by a heavy-duty, double-banded belt, for maximum positive power transfer.

The CH4420 wood chipper features a cantilever disc mounting design which assists in decreasing the amount of material wrap that can occur with certain stringy, sappy or wet wood types. It has a 4-sided adjustable anvil as well to ensure chipping quality and quality end product.

This compact and powerful chipper is perfect for the first-time chipper buyer, small acreage owner or rental application.

2" coupler standard.

CE compliant model is available.
