SKU: LB16020DMN

Categories: [DR Power Equipment](#)

Product Description

DR Power Leaf Blower X20 MAX - LB16020DMN

The DR X20 MAX features a commercial-grade air volume of 2000 CFM—or up to 5X the power you get from handheld or backpack blowers! The X20 MAX also adds a dashboard that gives you remote control operation of the fully adjustable airflow. Make 180° lateral airflow adjustments or 50° vertical airflow adjustments instantly—from the operator's position.

Easy, intuitive levers let you make change setting on-the-fly so you can blast extra air where leaves and debris are more embedded or move quickly through cleaner areas.
