Product Description

Bearcat WV160S Self-Propelled Wheeled Vacuum

AN INDUSTRIAL CLEAN UP SPECIALIST.

A Crary® Bear Cat® Wheeled Vacuum is the solution, from homeowners to commercial crews, to quickly and efficiently clean up dry messes. Tackle leaves, grass, sawdust, and more with either a push or 3-speed self-propelled Wheeled Vacuum from Crary Bear Cat.

A Crary® Bear Cat® Wheeled Vacuum is a great way for homeowners, commercial crews, or municipalities to quickly and efficiently pick up leaves, grass, or other light debris. With a variety of engines available and either push or 3-speed, self-propelled drive options, there's a Wheeled Vacuum that will fit your job.

Standard features for each model include five different height settings for easy pick-up on any type of terrain, a 56-gallon capacity quick dump bag, adjustable handle bars with cushion grip, a five-blade radial fan that delivers more CFM than any other competitor vacuum, and an easy-to-manuever 12" x 2.5" rubber tires with ball bearing hubs.

A variety of options are available for each model including extra bags, a hose kit for hard-to-reach areas, pivoting casters for easy maneuvering on hard surfaces, and a nozzle wear plate.
