Product Description

Bearcat SGACE Stump Grinder

STUMP GRINDING IS OUR BUSINESS.

Crary® Bear Cat®'s Stump Grinders feature a strong, 10-gauge steel body and eight strategically positioned carbide Greenteeth® on the industry class' thickest rotor. The Stump Grinder family bodies are designed for easy-access belt inspection and service and have operator-friendly controls.

A 208cc Briggs & Stratton® engine powers this Stump Grinder, allowing you to remove stumps from your backyard quickly and easily. The SGACE is perfect for your backyard, lake property, and more.

Boasting a 10" diameter rotor, complete with 8 Carbide Greenteeth®, the SGACE provides a 10" above ground cut and a 4" below ground cut. The SGACE rotor is the thickest rotor in its industry class, making this a powerful choice for the weekend warrior.

The compact 25" overall design width, wide tires, and easy-to-reach controls makes this unit a breeze to fit into any size yard. A fully collapsible, 5-position ergonomic handlebar means it is comfortable to operate and easy to store. Comes with Noram clutch.

Backed by the Crary® Bear Cat® Best-In-class warranty, the SGACE is ready to Unleash The Power™.
