Product Description

STIHL HT 105 Pole Pruner

Built-in America*, the HT 105 Pole Pruner is designed to help pros tackle low-hanging and high branches while also minimizing operator fatigue and maximizing cutting precision. Its new lightweight square shaft, telescoping increases rigidity while extending to a variety of heights and easily locks into position, allowing you to prune high branches with ease thanks to its lightweight design. With its semi-automatic choke lever, one-touch stop, no-slip grip design, and 1/4" STIHL PICCO™ (PM3) saw chain, the HT 105 makes tough jobs easier. Whether pruning, performing storm cleanup, or taking on tree maintenance, this pole pruner is ideal for landscaping and tree service professionals who value performance and efficiency.
